Portfolio: muhammadhamzads.github.io

PROFESSIONAL SUMMARY

Aspiring AI Engineer with strong practical experience in Python, Machine Learning, SQL, Data Analysis, and Artificial Intelligence. Passionate about designing intelligent systems that solve real-world problems through predictive modeling, automation, and data-driven decision making. Hands-on experience building end-to-end ML applications, analytics pipelines, computer vision projects, and AI-powered business solutions.

TECHNICAL SKILLS

Programming	Python, SQL, R
Machine Learning	Regression, Classification, Feature Engineering, Model Evaluation
Libraries	Pandas, NumPy, Scikit-learn, TensorFlow, Matplotlib, Streamlit
Databases	MySQL
Tools	Git, GitHub, VS Code, Jupyter Notebook
Core CS	OOP, Data Structures, Statistics, Data Visualization

FEATURED PROJECTS

- **NeuraBizAI (Final Year Project)**
AI-powered business analytics platform with predictive insights and intelligent decision support.
- **Student Performance Prediction System**
Developed a regression model using Python, Pandas, Scikit-learn and Streamlit to predict academic performance.
- **Generating Insights From Web Scraping**
Built a complete pipeline to scrape, clean, store (MySQL), and visualize web data.
- **Python Webcam Scanner**
Created a QR/Barcode scanner using OpenCV with MySQL integration.

EDUCATION

BS Computer Science (Expected 2026)
COMSATS University Islamabad, Sahiwal Campus

CAREER OBJECTIVE

Seeking an entry-level AI Engineer / Machine Learning Engineer role where I can contribute to impactful AI products while continuously learning and growing as an AI professional.
